VOTE NOT TO RETURN TO WORK

Strikers Will Not Return Until Demands Are Complied With

ACTION TAKEN TODAY

Rising Vote Taken on Returning to Work and Vote Almost Unanimous to Remain Out.

The 700 employes of the Southern Railway shops and the Potomac yards, who have been on a strike for more than a week today decided not to return to work until their original are complied with.

This action was taken at a mass meeting held this morning in the Opera House which was largely attended. Local officials of the union were in charge of the union.

The original demands are eighty-five cents an hour for mechanics and sixty cents an hour for helpers and a proportionate increase for apprentices.

After the meeting was called to order this morning and the question discussed a rising vote on the question of returning to work was taken and it was stated at the conclusion of the meeting that a vast demands are complied with.

It was decided to hold another mass meeting at 9 o'clock tomorrow morning in the Opera House when the situation will again be gone over.

A union official stated at the close of the meeting that if all of the others return to work they will, otherwise they will remain out.

It was generally believed by many that the men today would vote to return to work inasmuch as they had already been requested to return by officials of the A. F. L. news that they would not heed the request, therefore, came as a surprise.

The 300 shopmen at the Southern Railway shops walked out the morning of August 1 and the 400 employes at the Potomac yards struck August 4.

ARMISTICE TO END "BATTLE OF BROADWAY"

New York Aug. 11—The first prospect of an armistice in the now famous "battle of Broadway" appeared today.

A committee of the Producing Managers' Association announced informally that the producers would negotiate with striking members of the Actors' Euity Association, providing the "agitators" were barred. David Belasco, one of the producers committee, said the managers were willing to grant even more than the Euity contracts provide.

This development followed the announcement that another show would close. "The Gaieties of 1919". Non-striking members of the cast will be combined with those remaining at the Winter Garden in a vaudeville bill.

The entire Barrymore family—Ethel. Lionel and Jack—has aligned itself with the strikers, it was announced by their uncle, John Drew.

Eleven theaters are now closed with this achievement the actors are awaiting with keen interest the conference arranged for today between Equity officials and representatives of the Stage Hands and Musicians' Unions

Managers declared today they would deal firmly with pickets and in cases where actors are unduly active about the theaters arrests would follow. One picketer was fined $25 Saturday night.

Strikers were preparing a series of all-star performances, although they anticipated difficulty in obtaining the stars.

GAME CALLED

Cardinals Play Rex Athletic Club in Washington—Umpires Decision Cause of Calling Game

The Cardinal Athletic Club baseball team visited Washington, yesterday where they played the Rex Athletic Club nine on their home grounds.

When two of the Rex players were out in their half of the eighth inning the Cardinals objected to the umpire's decision when he called a Rex player "safe" at the home plate when he was "out." The Cardinals do not want a game only when it is won in a fair way, but they demand and insist on having what is due them in a baseball game.

The Cardinals out hit and out played the Rex yesterday and hammered two of their star pitchers during the fray. "Ikey Dreyfus the Cardinals second baseman was the king batter of the day, making four hits out of five times at bat. The score at the ending of the eighth inning was Cardinals 7, Rex 6.

FAMINE IN PETROGRAD

Epidemic of Dystentery Adds to Horrors of Situation

Stockholm, Aug. 11.—Famine in Petrgrad has attained terrifying proportions and an epidemic of dysentery is beginning to rage through out the city, according to messages received here.

M. Zinovieff, Bolshevik Governor of Petrograd, issued a proclamation to agricultural organizations and the corn producing districts, to which he said the population of the city was receiving famine rations.

Food prices in the Russian capital became fantastic when the rations were reduced recently, the dispatches say, a small lump of sugar costing from 10 to 12 rubles and a pound of white bread selling at 12 rubles.

Big Ship Christened by Miss Mary D. Palmer, 10 Years Old

AFFAIR A BIG SUCCESS

Distinguished Gathering Sees Ship Leave Ways—City of St. Joseph Next Ship to be Launched.

The big 9,400 ton steel freighter Chancook was launched at 4 o'clock Saturday at the plant of the Virginia Shipbuilding Corporation, in the present of a crowd of several thousand persons.

Miss Mary Dixon Palmer, the ten-year-old daughter of Attorney General and Mrs. A. Mitchell Palmer, was sponsor, and just as the big ship left her cradle she smashed a bottle of champagne over the prow of the vessel.

The boat glide dgracefully into the waters of the Potomac. The launching was declared to have been one of the most successful in the history of the shipyard there having been absolutely no hitch.

As the ship left the ways Minster's band of Washington played a patriotic air, the big siren at the yards let loose and the crowd gave a loud cheer.

Little Miss Palmer was the cynosure of all eyes. She stood beside the big ship with a bottle of champagne in one hand and a big bouquet of real roses in the other. Her parents stood beside her.

Miss Palmer was becomingly attired for the occasion and many pictures of her in various poses were taken by the camera men.

Immediately following the launching refreshments were served to the invited guests in the administration building.

Among the special guests attending were Attorney General and Mrs Palmer, Representative R. Walton Moore of the eighth congressional district, former Representative C. C. Carlin and Mrs. Carlin, John B. Payne, chairman of the United States Shipping Board; the Mexican ambassador, the Japanese ambassador, Ira Campbell of the United States Shipping Board; Colin H. Livingstone, president of the Virginia Shipbuilding Corporation; C. W. Morse, member of the board of directors of the Virginia Shipbuilding Corporation, and H. F. Morse, also of that corporation, together with a host of others.

WOULD HONOR DEAD IN FOREIGN GRAVES

London, Aug. 11.—Many British people strongly resent the decision of the government not to allow them to construct private memorials over the graves of relatives killed on the battlefields of France at the Dardanelles and other places, and to keep all memorials uniform ,says a copyrighted dispatch to the Philadelpria Public Ledger.

They say they should be allowed to honor their dead as they wish them to be honored, and all the sturdy independence of mind of the Britishers is aroused.

The subject affects every home throughout the country. The question of the permanency of the cenotaph to "the glorious dead" now standing in Whitehall also is being raised. Every day sees the rich and poor, old and young, bring wreaths to place on the cenotaph, which is situated in the middle of the busy street procession of traffic. It is real democracy. There is no social nor other distinctions among those gathered around the simple monument to pay their tribute to relatives lost in the war. Many tears have been shed and the spot has become sacred to the men who died.

Now it is proposed to remove the monument to Parliament square, in front of Westminster Abbey, and to make it marble.

Peoria, Ill., Aug. 11.—John Pickerell, of Des Moines, Iowa, is in St. Francis Hospital with a bullet wound in his right temple while the body of Annie Pause aged 24 years, of Pekin, Ill., is at the county morgue Physicians are attempting to determine which of the three bullets Pickerell fired into his back in the crowded entry of the Peoria drygoods store caused her death.

The killing was done as Miss Pause was leaving the store to go to her lunch yesterday afternoon.

A love affair which ended unhappily a year ago is believed to have been the cause of the slaying.

"He has come back here and wants me to go with him again," the girl said, "but I'll never have anything to do with him again."

INSURGENTS ARE STILL IN CONTROL

Railroads Are in Danger of Complete Freight Tie-up by Strike

CRISIS APPROACHES

Crisis Approaches — South Alone Seems Willing to Submit Demands To Mediation—Supreme Test Today

Insurgent leaders seemed still in command of the situation in the rail road labor strike.

With shopmen of Chicago and throughout Ohio and the Middle West voting not to return to work in defiance of President Wilson's request to halt unauthorized strikes, officials of the Railroad Administration stood pat on their refusal not to discuss wage demands until all men are back at work.

President Wilson, it was indicated, will take no notice of the letter sent him by J. D. Sanders of the so-called Chicago District Council of striking shopmen. The letter declared the shopmen will not go back untl the Government meets their demands for wage increases

The Chicago District Council has no constitutonal standing within organized labor, according to labor leaders.

In New England, insurgent strikers seemed to be backing strongly the stand of the Chicago workers. The New York, New Haven and Hartford railroads was reported so hard hit by the strike that 141 trains were suspended. Strikers claim 16,000 shopmen in Cleveland, Toledo and Columbus have voted not to return to work until increases are granted.

Only in the South was there a distinct detemination expressed by strikers to return to work and wait the result of negotiations with Rail Director Hines. Telegrams received here reported that many locals had voted to end the walkout.

Today, it was said, will be the real test of whether the railroad labor situation is to develop into war or peace. A check up of workers will be made then of all shops and exact figures will be obtained on whether unauthorized striking is increasing.

LEGISLATURE WEDNESDAY

Good Roads and High Cost of Living Problem Two Chief Matters to Come Before Extra Session

When the general assembly convenes on August 13 in the special session requested by a majority of the members of both houses, little time will be consumed in passing the good roads legislation for which the session was called. The matter has been discussed from every angle and legislation meeting the federal appropriation of $5,000,000 has already been prepared and will probably be introduced on the first day. Senator G. O'Connor Goolrick was authorized by the Virginia Good Roads Association to draft the necessary bills.

Several suggestions have been made on the best method of rasing the necessary taxes, and it is probable that fifteen cents for each $100 will be added to the general property tax. The roads association recommended this at its last meeting together with a 50 per cent increase on the automobile license tax.

It is thought that this last suggestion will meet with considerable opposition, as Virginia is said to have a fairly high automobile tax at the present time, being much higher than the tax in North Carolina

STRIKING RAILROADERS

It is thought that present conditions incident to the wholesale strike of railroad men in the United States will reach its crisis today. Insurgent leaders, it is stated, are still in control of the situation. These leaders are represented as being defiant, and a telegraphic reply to properly constituted labor officials, who had urged the men to return to work while awaiting negotiations, was brief—only this and nothing more: "Go to hell."

This action upon the part of radical members of certain labor organizations has long been anticipated. It was apparent hat the time would come when dissatisfied men would defy their superior officers.

While the country is rocking with disorder, the result of strikes, it is pleasing to note that railroad men in teh south art not following the wild movements of their associates in other sections of the country.

PLEASANT SUNDAY

The meterological conditions yesterday were greatly enjoyed, following the heat of last week. There was a break in the torrid wave Friday night, when the mercury fell considerably, and a fresh northwest breeze prevailed Saturday. The effects of the welcome change were felt yesterday, and hundreds of automobilists enjoyed spins through the city's thoroughfares and into the contiguous country. The roads between this city and the national capital were filled with machines throughout the day and far into the night.

The temperature last night was pleasant and conditions today have been enjoyed.

Yesterday was the coolest August 10 since 1872. Forty-sevn years ago the mercury went down to 57 degrees, and yesterday at 7 o'clock the official figure was 60 degrees. It never did get real warm throughout the day, the highest figure being 82 degrees. With the low humidity and a gentle breeze, the day was ideal for out of door enjoyment.

Continued pleasant weather is promised for the next 24 hours, without much change in the temperature.

WAR ON RATS

Now that Germany has been put out of commission from a military standpoint, two of the foremost nations which have engaged in formulating peace are directing their efforts towards ridding the world of rats, those sagacious unwelcome guests which gnaw their way into dwellings, granaries and chicken coops. It is stated that many millions of dollars' worth of eatables are destroyed annually by these repulsive creatures, which generally will not enter traps nor eat food upon which poison has been placed.

England recently began a crusade against the rodents, and every means which can be devised to rid premises of the destroyers are being utilized.

The United States is to have a rat week during which determined efforts will be made to eliminate this so-called spreader of disease, devour of food, and often incendiary, as it is believed they start many fires by gnawing matches.

The anti-rat week idea originated in London, where noted health leaders formed a society to fight the pest. One member turned his barn into a great cage in which he killed nearly 200 rats in one day.

The rat is not a native of the American continent, but as it follows man wherever he goes, it did not take it long to make its way on ships across the ocean with Europeans. At first only the English black rat made the voyage. This creature is not so fierce or as large as the present brown rat. The latter, supposed to be a native of the East Indies, came here via Norway, and in a short time exterminated the black.

Rats have been known to dig six feet under a brick wall in order to reach granaries. Although such structures are constructed of cemment and covered with corrugated ion in parts of Great Britain, they are often found in such store houses

NATURE ON THE JOB

The common belief—which certain scientists have assured us is a fact—that more boys than girls are born during and immediately after a war. This is Nature's way of replenishing the forces dpleted by the cannons. This condition has prevailed in the past, and if we are to have faith in Nature, it must be expected to hold now. But in certain quarters th birth rate has fallen off, and babies of either sex have ceased t oarrive as numerously as they once did. There are some who call this state of affairs a progressive step; it is generally so-called by those who ae most responsible for it. The "emancipation of woman" is another name for it. There are others who, though heartily favoring the granting of equal franchise to the hitherto submerged sex, deplore the feverish desire of the new free-women to be done with all domestic ares.

Those who "view with alarm" the present condition have been asking "how is the customary post-bellum replenishment of the male population to eventuate?" But Nature is at work, female Nature herself. The emancipation of woman affects not one class, but all. So those who were accustomed to the performance of household duties for pay are seeking other and more "emancipated" places. Servant girls are hard to get. Therefore those housekeepers who were once able to employ them, and who then found time for dabbling in politics and other things which are not really work, are finding it more and more necessary to attend a domestic affairs themselves.

CHURCH FAILING

Washington Pastor Pleads With Laity to Overcome its Aristocracy

Condemning from the pulpit the Christian Church as an aristocrat that has failed in its whole duty toward humanity, Dr. David Ransom Covell, pastor of Trinity Church Washington last night pleaded with the laity to democratize religion.

"you have surrendered your religious liberty into the hands of a few men," he said. "All the talking, all the reading, all the praying in the church is done by one man whom you call a minister, but whose power would cause an outsider to regard him as some monarch of religion.

"You have turned over to the clergy the definition and activities of religion, and when you cry out for participation you are surprised that some of the more narrow-minded of them refuse to have their powers discontinued."

CHARGE OF MURDER

Negro Lodged in Houston Jail on Complaint That he Tried

Danville, Va., Aug. 11.—Lawrence Guthrie, a Halifax negro, is being held in Houston jail charged with murdering his wife, and then committing arson to cremate her mains. The woman, Roxie Guthrie, has been missing since July 2, when she was last seen with her husband, A charge of abduction brought against Guthrie and the demand that he produce his wife, failed in the courts and the woman's disappearance was being forgotten when R. W. Weatherford, last Sunday, found the remains of a body in a burned barn on the plantation of R. B. Llewellyn. Nearby was found a piece of a dress and the woman's parents, so officers charge, identified this as being part of clothing she wore when last seen. Guthrie was re-arrested and police say has confessed the murder, saying that he killed his wife by hitting her on the head with a rock.

WAR ON PROHIBITION

Democratic Candidate for Governor In Jersey Raps Anti-Saloon League

Sea Girt, N. J., Aug. 11.—James R. Nugent arch enemy of prohibition, whose candidacy for Governor of New Jersey on a straight-out fight against sumptuary legislation and for the preservation of constitutional and State rights is arousing great interest, declares that the "present spirit of unrest which is upsetting business and trade conditions, and which is leading to a great economic and industrial crisis, is directly attributable to the political fads, fancies, foibles and 'isms' that have been allowed to run rampant." He also asserted that the Anti-Saloon League, which he termed "a private organization of professional zealots for revenue only." in its zeal to fasten prohibition upon an unwilling people, was chiefly responsible for the fact that the nation is apparently torn at a time when every American should be under by internal dissensions at a standing shoulder to shoulder and working harmoniously in an endeavor to solve the problems of reconstruction due to the world war.

Mr. Nugent also averred that the Anti-Saloon League was not willing to submit the question of prohibition to the vote of the people, because it knew that the people generally did not favor sumptuary legislation. He declared that the Eighteenth Amendment was unconstitutional and said if he was elected he would utilize all the resources of the State to see that the sovereignty of New Jersey was maintained. He said that prohibition was not a governmental question, but was purely a moral question, and called upon his hearers to rally to his standard in the fight that he was waging against hypocrisy.

TWO WOMEN MOURN

Major Ends His Career as Bigamist In San Francisco

San Francisco, Aug. 11.—Two women, the victims of Maj. David E. Barney, U. S. A., retired, in his brief career as a bigamist yesterday mourned the former officer, who killed himself when exposure was at hand, paid tribute to his good qualities and forgave him.

A shot in the temple, from his own army revolver, ended Maj. Barney's honeymoon trip with his six-weeks bride. That shot cheated the detectives who were waiting on the pier just ahead to arrest him as he landed. It left two mourning women both bearing the name of Mrs. David E. Barney, too stricken with grief to feel anything but pity for the dead man and tolerant sympathy for each other.

Death worked these miracles where life would only have brought disgrace, shame and a triangle of bitter hatred.

RED CROSS DRIVE

Membership Roll Call and Appeal for $15,000,000 End Armistice Day

Washington, Aug. 11.—Plans for a nation-wide Red Cross campaign opening Monday, November 3, and closing Armistice Day, November 11, were formally announced last night by Dr. Livingstone Farrand, chairman of the executive committee of the American Red Cross. The primary object of the campaign, which will be known as the Third Red Cross Roll Call, will be to enroll members for 1920, but there will be in addition a general appeal for $15,000,000 to enable the organization to complete its war obligations at home and abroad.

KILLED IN TRAIN CRASH

Atlanta, Ga., Aug. 11.—Mrs. Charles Westbrook 44 and her daughter Aurelia Westbrook 14, were instantly killed and four other children were injured, one of them probably fatally when a northbound Louisville and Nashville passenger train crashed into an automobile at a crossing in Canton, Ga., yesterday.

The family had started to Holbrook Camp ground where Mr. Westbrook has been preparing for a camp meeting.

STRIKES OVER WIDE AREA

Reports Indicate Number of Men Out Will Reach 250,000

Washington, Aug. 11.—Approximately 250,000 men are on strike throughout the country, it was estimated here yesterday.

Based on incomplete returns to the Labor Department, figures of the American Federation of Labor and newspaper reports, this estimate is considered fairly accurate in the absence of more authenticated figures.

More than 100,000 men are affected directly and indirectly by strikes lockouts and controversies reported to the Labor Department for mediation Officials pointed out that the total number of strikes throughout the country must be far above this figure because the Labor Department is asking to mediate only in a small percentage of cases.

Labor Department figures include no reference to the strike of Brooklyn carmen and the files contain only one or two strikes in New York, although New York officials estimate that 110 separate strikes now are going on there.

Thousands of machinists are on strike in and around Chicago in addition to 20,000 who are said to have quit work in railroad shops.

New England cities, especially Hartford, Conn., are experiencing a strike epidemic precipitated by machinists. Leaders claim 36,000 men are striking at the Chicago stockyards, although employers place the total at 10,000.

Fishermen formed a union at Boston, presented demands and struck. Among other cities affected are Cleveland, Hammond, Ind., Olean, N. Y., and Grand Rapids, Mich.

Demands for a 44-hour week caused many of the strikes. Other causes are higher wages and recognition of the union.

". . . . and duelling, too, had become all too frequent a practice. From politics to gossip, no difference of opinion was too slight to lead to the field of honour. One particular affair, which I recall, arose from an argument over the difference between two lots of Virginia tobacco."

—Memoirs of Thomas Fairfax Peyton

What makes Virginia-Carolina the most popular cigarette tobacco?

THE fragrant, golden Virginia-Carolina tobacco that Sir Walter Raleigh and Dr. Samuel Johnson enjoyed in their pipes, is today the world's favorite for cigarettes. For five times as much Virginia-Carolina is smoked each year as all the Turkish varieties combined.

To enjoy Virginia-Carolina tobacco at its best, to get the full, sun-ripened flavor out of every puff, don't smoke it mixed with other tobaccos—smoke it straight.

Smoke a cigarette made *entirely* of Virginia-Carolina. Smoke Piedmont.

The Virginia-Carolina Cigarette

Piedmont

NOTE—In England, where Virginia-Carolina tobacco has the preference, a smoker pays as much for his Virginia-Carolina as for the best Turkish tobacco. Because over there both kinds of tobacco pay the same Import duty. But in this country Virginia-Carolina tobacco costs you less than any Turkish tobacco because it is grown here and unlike foreign-grown tobaccos carries no Import duty.

SEAPLANE STARTS ON TRIP

With Four Passengers it Leaves New York for New Orleans Through Inland Waterways

New York, Aug. 16.—A seaplane carrying four passengers left Port Washington L. I. yesterday on a leisurely 5000-mile trip through the inland waterways of the United States which will end at New Orleans.

The two men in the machine were Major Sidney E. Parker R. A. F., and Capt. G. Talbot Wilcox, also a former Royal Air Force man. Both are members of the American Flying Club and are making the fight to demonstrate the advantage of the flying boat in long-distance journeys.

From Port Washington, which they left this morning in the seaplane Sea Gull, they will fly to Saratoga Springs and thence to Buffalo. Detroit and Chicago, when they will go down the Mississippi, stopping at the principal towns to give exhibitions.

RESTRAINS FROM PICKETING

Judge Moncure Enjoins Typographical Man From Interference at W. C. Hill Plant in Richmond

Judge William A. Moncure, of the Chancery Court, has issued an injunction restraining certain members of the Richmond Typographical Union, No. 90, from alleged picketing of the plant of the W. C. Hill Printing Company, and an alleged enticing of men to leave the employ of the printing concern. This injunction is automatically dissolved October 6, 1919, at noon. The action grows out of a strike which union printers have been conducting for several weeks past.

GO TO PALESTINE

Whole Jewish Communities to Quit Russia—Youths are Organizing

New York, Aug. 11.—More than a million Jews from every part of the globe are preparing to migrate to Palestine as soon as its political status is fixed, according to surveys by the International Zionists Organization made public here.

Emigration committees have been formed in many countries, it was said while tens of thousands of young men from every occupation have organized groups of agricultural training and study of technical and scientific questions bearing on settlement of the Jewish homeland.

From Russia reports have been received that whole Jewish communities have "prepared to strike their tents" and strong protests have been made against the proposed limitation of immigration to 50,000 a year. In Odessa preparations are reported already under way for handling the vast throngs expected to pass through as soon as traveling is safe.

Not only in Poland, Hungary, Holland Germany and other European countries are thousands of Jews said to be liquidating their property preparatory to migrating, but Jewish residents of Canada and Central and South American countries are making ready, while England and the United States are expected to contribute their quota of man power.

Section 117. General laws for the organization and government of cities and towns shall be enacted by the general assembly, and no special act shall be passed in relation thereto, except in the manner provided in article four of this Constitution, and then only by a recorded vote of two-thirds of the members elected to each house; and except also in the case of cities having more than fifty thousand inhabitants, as hereinafter provided. But each of the cities and towns of the State having at the time of the adoption of this amendment a municipal charter may retain the same, except so far as it shall be repealed or amended by the general assembly; provided, that every such charter is hereby amended so as to conform to all the provisions, restrictions, limitations and powers set forth in this article, or otherwise provided in this Constitution.

Notwithstanding, however, anything in this article contained the general assembly may, by general law or by special act (passed as prescribed in article four of this Constitution), depart in any respect (except as otherwise in this section expressly provided) from the form of organization and government prescribed by this article for cities and towns, and may provide, from time to time, for the various cities and towns of the Commonwealth such form or forms of municipal government as the general assembly may deem best; but no form or forms of government authorized by the second paragraph of this section shall become operative except as to such cities or towns as may thereafter adopt the same by a majority vote of its qualified electors at an election to be held as may be prescribed therefor by law. All the limitations on the powers of the councils of cities and towns imposed by this article shall apply in like manner to the principal legislative authority under any form of government which may be authorized hereunder. The term "council" as used in sections one hundred and twenty-five and one hundred and twenty-seven of this Constitution shall be construed to include the body which, under any form of municipal government, shall be vested with the principal legislative authority of such municipality.

The general assembly, for the purpose of this article, may classify cities according to their population but the maximum population prescribed for any class shall exceed the minimum population for the same class by at least ten thousand. The general assembly, at the request, made in manner which may be prescribed by law, of any city having a population of over fifty thousand inhabitants, may grant a special form of government for such city.

But each of the cities and towns of the State having at the time of the adoption of this Constitution a municipal charter may retain the same, except so far as it shall be repealed or amended by the general assembly; provided, that every such charter is hereby amended to conform to all the provisions, restrictions, limitations and powers set forth in this article, or otherwise provided in this Constitution.

(b) The general assembly may, by general law or by special act, (passed in the manner provided in article four of this Constitution) provide for the organization and government of cities and towns without regard to, and unaffected by any of the provisions of this article, except those of sections one hundred and twenty-four, one hundred and twenty-five, (except so far as the provisions of section one hundred and twenty-five recognize the office of mayor and the power of veto) one hundred and twenty-six one hundred and twenty-seven and one hundred and twenty-eight of this article and except those mentioned in sub-section (d) of this section. The term "Council" as used in any of said sections shall include the body exercising legislative authority for the city or town, and all ordinances enacted and resolutions adopted by such body shall have the same force and effect for all purposes, as if enacted or adopted in accordance with the provisions of section one hundred and twenty-three of this article. But such organization and government shall apply only to such cities or towns as may thereafter adopt the same by a majority vote of those qualified voters of any such city or town voting in an election to be held for the purpose, as may be provided by law.

(c) The general assembly, at the request of any city or town made in manner provided by law, may grant to it any special form of organization and government authorized by sub-section (b) of this section, and subject to all of the provisions of that sub-section, except that it shall not be necessary for such city or town to thereafter adopt the same.

(d) Any laws or charters enacted pursuant to the provisions of this section shall be subject to the provisions of this Constitution relating expressly to judges and clerks of courts, attorneys for the Commonwealth, commissioners of revenue, city treasurers and city sergeants.

(e) Any form of organization and government authorized by any provision of this section which may have been adopted heretofore by any city or town pursuant to any act of the general assembly enacted before such provision became effective, and which is now in operation, is hereby declared legal and valid ab initio, and shall have the same force and effect as if it had been authorized by this Constitution at the time of its adoption.

KILLED WIFE; BURNED BODY

Danville Negro Held on Murder and Arson Charges

Danville, Va., Aug. 11.—Lawrence Guthrie, colored, of Halifax county, has been held for the county grand jury on the charge of murdering his wife, Roxie Guthrie, and then committing arson to destroy the body. Guthrie has confessed his crime and is in Houston jail. The woman was last seen early in July and her absence led to Guthrie's being charged with abduction. He was acquitted. The woman's parents fearing she had met a sudden death dragged parts of the Dan river to no purpose and the circumstance was forgotten.

Last week R. W. Weatherford passed a barn on the farm of L. B. Lewellyn and saw it in flames. The pungent odor of what he thought was burning flesh struck Weatherford so keenly that he visited the spot again when the tobacco barn, rudely constructed of timbers and clay, had been destroyed. He found a partially consumed body and he at once notifed the authorities of South Boston. Suspicion entered upon Guthrie, and when a fragment of clothing which had escaped the flames was taken to the woman's parents they identified it as part of a dress she wore. Guthrie when arrested broke down and confessed, saying that he killed his wife with a brick, and had dragged her body to the barn, awaiting a favorable opportunity to wipe out traces of the crime.

Local Tribunals in Britain to Probe High Cost and Fix Punishment

London, Aug. 11.—Great Britain was making ready last week to fire the first shot in her offensive against the profiteer.

Steps were being taken to follow up the announcement of Sir Auckland Geddes, Minister of Reconstruction, that local tribunals representing the workers and consumers would be established with power to assess $100 fines against profiteers and send more flagrant cases to the courts, which will be empowered to inflict a $1,000 fine or six months' imprisonment.

The tribunals, according to the Geddes plan, will summon suspected profiteers and examine their books. They will examine the prices, not only of foods controlled by the Government, but all articles in common use, such as lothing and furniture.

Small traders are the greatest profiteers, rather than the wholesalers and manufacturers, according to Geddes.

"There are instances," he said, "where small haberdashers, formerly living in two rooms, have been enabled to buy country estates."

STRIKERS REJECT PEACE

Railroad Shopmen Hoot Hines as They Spurn Wilson Proposal

Jeering the name of Walter D. Hines, Director General of Railroads, Washington's striking shopmen voted unanimously last week to disregard President Wilson's offer, through Hines, to re open negotiations with the men demanding a wage increase.

A suggestion to put the matter squarely before President Wilson, who was characterizd as one who has shown himself labor's friend, was loudly cheered. Practially all striking members of the Federated Washington Terminal employes were present and also a number from Alexandria.

Bert M. Jewell, acting president of the railroad department of the American Federation of Labor, asked the men to reconsider their move.

Answering an attack upon Director Hines, he told the men that Hines "had gone along so far. Whetehr he goes the rest of the way is to be seen, and is to be dealt with by yourselves."

"The federation you are sworn to uphold advises you to return to work," said International Vice President Anderson, of the Associated Mechanis. "This strike may melt away as other strikes have done in the past. You can save the situation now by going back to your work, and it can be done without admitting defeat."

The meeting was held behind closed doors It was said, however, that steps were taken for a strike. Members of the Union said later that the demands had been presented some time ago, and that as a result of their refusal many of the men had quit work. John McDonald, of the Builders' and Manufacturer's Exchange declared that 100 men had been on strike since August First.

ROB ROAD WORKMEN IN SHACK

Hold up 50 Sleepy Toilers at Pistol Point, and Relieve Them of Week's Pay, $1800

Trenton, N. J., Aug. 11.—Working in the most approved style of the story books, two men entered a shanty houseing 50 employees of a construction company doing work on the Windsor Highststown road, two miles this side of Highstown, shortly after 11 o'clock Saturday night, flashed revolvers before the sleepy inmates and proceeded to rob them of their week's pay, amounting to nearly $1800.

The men were heard to ride up to the shanty on motorcycles, stop outside and dismount. When they entered each carried a revolver. There was an air of determination about them that gave the impression that when they ordered the occupants to throw up their hands they meant prompt obedience. The workmen were then ordered to turn over their money, and one by one they emptied their pockets on a table in front of the bandits. Upon completion of the job they gathered the spoils and made their get away.

Some of the victims recognized the robbers as men who were discharged from the employ of the construction company a short time ago and have furnished the police with accurate descriptions of them.

POLITICAL SHAKE-UP

New Alignment of Present Parties or Formation of New One to Advance Radicalism

Washington, Aug. 11.—The outburst of radicalism throughout the United States within the last two weeks, a state of mind that is manifested in the sudden demand from organized labor for the "nationalization" of the railroads, for Government control of the fuel supply of the nation, and for Government measures that will reduce the cost of living has given the old-line parties in the country something serious to think about.

Moreover it has convinced many political leaders that a new alignment is inevitable, and that one of the other of the existing organizations must become radical to a degree hitherto undreamed of, else a third party will come into being which will voce the plans and policies of the labor element of the nation. This element of course, might be driven into the ranks of Socialism, but that is not at this moment looked upon as a serious prospect.

A few weeks ago there was much discussion of a third party dedicated to "nationalism," as distinguished from "internationalism." A few political leaders had given notice that they would fight the league of nations to the extent of creating a new organization for the purpose, if need be. But this discussion revolved solely about foreign policies. It did not take into account any domestic crisis. It was predicated upon the assumption that a vast body of American people were uncompromisingly opposed to linking up the fortunes of this country with those of Europe, and that if the Republican party did not force the issue in that direction a new party would be formed which would do it.

Since those warnings were issued, however, domestic questions have come forward for an answer which have completely overshadowed the debate on the league of nations. The high cost of living is at the bottom of all these questions, and unless it can be dealt with successfully there is no foreseeing how far the revolutionary spirit may spread among the American people.

SHERIFF ARRESTS FARLEY

Alleged Leader of Outlaw and Moonshiners' Band Now in Jail in Beckley, W. Va.

Bluefield, W. Va., Aug. 11.—Manderville Farley, alleged leader of an outlaw and moonshiners' band in the Flat Top Mountains, and charged with desertion from the army and abduction of the fourteen year old daughter of Kenneth Abshire, a farmer, was arrested Saturday by Sheriff of Raleigh county. He was captured in the mountains with his brother, Maitland, and the girl, whom, it is alleged, he abducted. The three were placed in jail at Beckley, W. Va.

When arrested the Farleys, though armed, made no resistance, Deputy sheriffs are searching for the remainder of the band.

Posses from Raleigh and Mercer Counties have been searching for Farley since his allleged abduction of Abshire's daughter several weeks ago.

WOMAN SLAINED

Bullets in Victim's Body Fit Pistol Found in Sheriff's Valise

Kalamazoo, Mich. Aug. 11.—Prosecutor Wattles has obtained a warrant formally charging George S. Hocknoll, a deputy sheriff and detective with the slaying of Mrs. Bessie Voeth. She was shot twice in the back with a 38-caliber revolver, evidence shows, and the bullets in her body are of the same type used in the revolver found in the prisoner's grip, which he left at a hotel instead of taking home with him. He admits being with the woman up to 5 o'clock in the evening.

"I won't say that I did it, no matter what you do or say," was the final statement of Hocknoll.

The finding of two bullets in the body of Mrs. Voeth Thursday after several hours of probing and the discovery of two suiteases with a revolver and clothing belonging to Hocknoll at the Columbia Hotel, puts the case against Hocknell in such shape that Sheriff Eaton says will warrant their holding him for trial.

THEATRES

INGOMAR—KITTY GORDON

"Mandarin's Gold" is the title of the striking new World Picture which, with Kitty Gordon as the star, will be shown tonight at the Ingomar Theatre. It is a surprising, unusual story of a woman's need for money, of the lengths to which she goes to get it, and of the amazing things that occur to her as the result of her efforts. Supporting Miss Gordon in this picture is an exceptional cast. Popular Irving Cummings, who will be remembered for his great work in other World Pictures, appears as her leading man. Also the last chapter of "The Tiger's Trail."

RICHMOND—"THE DARK STAR."

The big Paramount Artcraft Special, "The Dark Star," based upon Robert W. Chambers' famous novel of the same name, is a thrilling photoplay and will be seen tonight at the Richmond Theatre. Marion Davies has the chief role, that of a girl who lives under the influence of an evil planet. There are numerous dramatic scenes all of which grip and hold the interest as by a spell. The picture is distinctly worth while.

HAVE YOU READ IT?

It will be the attraction at the Grand Theatre tonight. It is called "Riddle Gawne," and all the thrills of the story will be found in the screen version. The Argosy has been long noted for its stirring tales and this is one of the best ever published in that periodical. Also Antonio Moreno in "Perils of Thunder Mountain," "The Bridle Trap."

To Our Patrons

Alexandria, Va., June 2, 1919.

In line with our progressive banking methods, and to meet the demands of our patrons, we are installing on July 1st, an up-to-date Safe Deposit Department, under the personal supervision of one of our officers.

This has been made necessary from the fact that a large number of our depositors owning Liberty Bonds and other securities desire a safe place for their keeping.

It is our plan to enlarge the number of Safe Deposit Boxes, and make a rental charge to meet the operating expenses of this Department. This charge will become effective July 1st, 1919, and a bill will be sent out at that time to the holders of boxes, and if any desire to make any change we will be glad to have them call before the bills are rendered for the ensuing year.
